

CLASS ACTION REGISTRATION-OF-INTEREST FORM

You are invited to register your interest in being part of a potential class action seeking compensation for damages arising from KordaMentha's planned pulp mill should it be built in the Tamar valley.

You can withdraw, change or update your registration details at any time.

The questions below give you the opportunity to enter the value (in dollars) of your assets (property or business) put at risk of being devalued by the pulp mill. Individual values will not be divulged to anyone. They will be used to calculate a total value of all assets put at risk. Preliminary figures suggest a total value of around \$2 billion but this figure may vary once the final number on the register is known and all the potential threats to health, property, amenities and businesses become evident.

Not all questions will apply to everyone but please tick a box or boxes that best describe your situation. All questions are optional except those marked as required. Please use the text boxes to make additional comments if required.
